

# Saliva-based PCR Travel Certificates

Rako Science provides pre-departure PCR saliva-based COVID-19 testing to international passengers departing New Zealand. Rako Science's PCR saliva test is proven to be as accurate as nasal tests and is non-invasive and painless. Rako Science PCR COVID-19 testing is IANZ accredited (accreditation No. 987 IGENZ Ltd.) and is the only diagnostically validated PCR saliva test in New Zealand.

Rako Science PCR Travel Certificates are normally available within 24 hours and are successfully used at airline check-in and airport arrivals for international travellers to Asia, Europe and the USA.

### Non-Invasive

Our saliva test is non-invasive and suitable for young children.

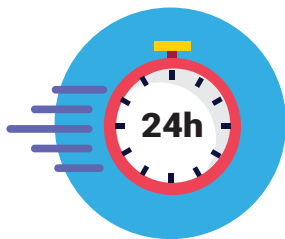

### High Accuracy

Our saliva test has high sensitivity and specificity and has been proven to be as accurate as nasal tests.

### Verified Science

Our saliva test, processed through IGENZ, is IANZ accredited and the only diagnostically validated saliva test for COVID-19 in New Zealand.

### Fast Turnaround Times

Our PCR Travel Certificates are normally available within 24 hours.

### Internationally Recognised

Our PCR Travel Certificates are successfully used at airline check-in and airport arrivals for international travellers to Asia, Europe and the USA.

### QR Code Verification

Our PCR Travel Certificates include QR codes allowing airlines and border authorities to verify authenticity online.
